

Call for Poster&Demo

The ICPADS 2018 poster and demo session solicits the submission of research, platform, and product demonstrations and exhibits from both academia and industry. Poster or demo should showcase innovative research or product prototypes, platforms, and applications. We strongly encourage posters and demos based on novel applications in the domain of data, platform, computing, and architecture. We also welcome live demos reproducing evaluation results of papers appearing in IEEE ICPADS 2018.

Topic of Interest

Authors are invited to submit original contributions in all major areas, which include, but not limited to:

- ♦ Parallel and Distributed Applications and Algorithms
- ♦ Cloud OS, Middleware, Toolkits, and Applications
- ♦ Data Intensive Computing and Data Centre Architecture
- ♦ Big Data Platforms
- ♦ High Performance Computational Biology and Bioinformatics
- ♦ Dependable and Trustworthy Computing and Systems
- ♦ Internet of Things
- ♦ Fog/Edge Computing
- ♦ Cyber-Physical Systems and Sensor Networks
- ♦ Embedded systems
- ♦ Real-Time and Multimedia Systems
- ♦ Operating Systems, Distributed and Parallel Systems
- ♦ Communication and Networking Systems
- ♦ Mobile and Pervasive Computing

Workshop Organizers

Program Chairs

Zhenjiang Li (City Univ. of Hong Kong)
Longfei Shangguan (MSR & Princeton)

Important Dates

Demo&Poster Submission Deadline:
October 15, 2018
Notification: October 30, 2018

Submission Guideline

Each submission should be a summary or draft an extended abstract describing the research to be presented, maximum ONE page in US letter size (8.5 x 11 inches) with fonts no smaller than 10 point size, in PDF file format. The author of each accepted demo or poster is required to introduce her work in our demo&poster session. We will provide a table and power strip for each accepted demo. (All accepted ICPADS 2018 poster&demo will NOT appear in IEEE digital Library.)
